Satyam Developers Ltd.

“CompuBrainTM were the first web designer for us. Till date CompuBrainTM consistently met and exceeded my expectations in their professionalism and the quality of their deliverables. They were very clear on my requirements and objectives from the outset, and built up the website through a series of well-managed iterative refinements. Their secure test platform allowed me to keep abreast of development in real-time and provide feedback which was immediately incorporated back into the evolving site. The entire development cycle adhered to the tight schedule that was initially proposed. There was no schedule slippage, and CompuBrainTM sustained a high level of energy and responsiveness throughout the project. The website itself incorporates the very latest static and dynamic components, and it is all working flawlessly. The unique product of CompuBrainTM called ‘CompuBrainTM Certified Network’ (CCN) was implemented at our premises since our inception. CCN’s flawless email service enables us to receive more than 200 important and large emails daily. It was pleasure working with CompuBrainTM throughout the development of my company’s website and CCN. I admire CompuBrainTM for the terrific job done on our website and networking. I am completely satisfied in my experience with them, and would have no hesitation in recommending them for web development to my clients and professional colleagues.”

Techflow Enterprises

"Considering our previous experience with the web designers we did not expect all that much. However, from the start CompuBrain™ turned out highly professional quality work along with a positive attitude that never slacked. Dealing with CompuBrain™ personal is a pleasure. Obviously very talented & efficient people, who give more than 100%, understand your needs and desires and provide you with optimum solution. Where we expected the absolute minimum amount of work, they actually put in the time and created breathtaking designs. Their solutions to our few problems were simple and effective. CompuBrain™'s web applications and solutions for prevention of data leakage from website were beyond our imagination. With CompuBrain™'s support and service we were able to trace who visited our website, what is downloaded from the website, primary details of the visitors were compiled and the list is endless. The first five things that come to my mind while thinking of CompuBrain™ are Innovative, Creative, Effective, Reliable, and Magnificent."

RJ Dhvanit, 98.3 FM Radio Mirchi

I am a RJ at Radio Mirchi 98.3 FM and am plagued with the habit of starting then things at once. All I can say is - "Thank God for Bijoy and the Team CompuBrain™. Whatever I throw their way, be it launching of my new album, SEO or the attractiveness of the website (and trust me - I've thrown plenty) they jump right in and get to work. Team CompuBrain™

have incredibly good people - they aren't just service providers, they became my friends.

I'm sure I've tested their patience plenty over the years, but Bijoy and the guys never let it show once. Every step of the way, they made it clear that my satisfaction was their number one priority. To say that they went "above and beyond" would be an understatement. They would put in the extra hours and when I needed something ASAP and they would contribute valuable inputs on how to improve the site, innovative ways of promoting my album (over the net) and several creative ideas. Now whenever I think of IT related activities, there is no other team I would consider for the job than CompuBrainTM.

I look forward to a long and prosperous business relationship with Bijoy and Team CompuBrainTM. It has been great to see the company grow into what it is today and I can't wait to see where it goes. There is no apparent limit for CompuBrainTM, as they offer what so few do - CUSTOMER VALUE ADDITION.

Citizen Metalloys Ltd.

"We highly recommend CompuBrainTM. Our experience with them has been excellent. I have been and am extremely happy with CompuBrainTM's product and services. Once we choose them, we started by giving them some very generic concepts of what we wanted. As a result they submitted several impressive concepts and ideas. These ideas helped us define a look and feel for our new website's design. As the development moved along CompuBrainTM complied with our MANY requests - no matter how small, or complex. They made sure the work met

with our full satisfaction. We love our new web site and we are getting great complements from both customers and competitors alike.

I believe it has been more than a quarter now since we implemented CCN (CompuBrain™ Certified Network) of CompuBrain™ at our office and factory. Since its implementation our way of functioning in office has changed dramatically. Your expertise in assuring high performance of every Computer, secured email service, large amount of data space, along with secured and virus free data, connectivity between two offices. Thank you very much for all your persistence and help in increasing the productivity of our business after implementing CCN.

We look forward to a long-term relationship with CompuBrain™.
