CompuBrain Profile

CompuBrain™ is an India based company dealing with **Technology Consultancy, Website Designing, Search Engine Optimization** and **Information Systems Security**. CompuBrain™ is characterized by unparalleled experience, comprehensive capabilities, and extensive research fulfilling the requirements of various industries and their business segments. This enables CompuBrain™ to collaborate with its clients, and help them become the leaders in the respective businesses.

The "Business Leadership" strategy thrives on our capabilities in **Technology Consultancy, Website Designing, Search Engine Optimization** and **Information Systems Security**. We help our clients perform at the highest levels so they can create sustainable value for their customers. Using our industry knowledge, service-offering skills and technology capabilities, we identify new businesses, technology trends and develop solutions to help our clients grow their business tangibly. We help our clients in the following ways:

- ✓ Enter new markets/market penetration.
- ✓ Increase revenues in existing markets.
- ✓ Improvement of operational performance.
- ✓ Delivering their products and services more effectively and efficiently.

CompuBrain™ is distinguished in the marketplace by the following characteristics:

- Extensive industry knowledge.
- Extensive and evolving service offerings based on our client needs.
- Expertise in business transformation.
- Remarkable track record of technology innovation and implementation, including our research and development capabilities.
- Qualified and experienced team of CompuBrain™ professionals.
- Strong presence over the Internet.

CompuBrain Values

Our Core Values have shaped the culture, and defined the character of our company, guiding how we behave and make decisions:

Client Value Creation: Improving our clients' business performance, creating long-term relationships and focusing on execution excellence.

Integrity: Inspiring trust by taking responsibility, acting ethically, and encouraging honest and open business discussions.

E-Network: Mobilizing the power of our team to consistently deliver exceptional services to our clients anywhere and everywhere across the globe.

Stewardship: Building a heritage for the future generations, acting with a mentor mind-frame, training people and developing skills everywhere we are, along with meeting our commitments to all our clients in terms of quality, quantity and response time.

Best People: Offering our clients the opportunity to work with the best brains in the business with all the required zest and enthusiasm.

Respect for the Individual: Valuing diversity, ensuring an interesting and inclusive environment, and treating people as we would like to be treated ourselves.

Integrating our four versatile capabilities of **Technology Consultancy**, **Website Designing**, **Search Engine Optimization** and **Information Systems Security** with alliances, we help our clients be the Leader in every part of their businesses, from strategic planning to day-to-day operations.

CompuBrain Alliances

At CompuBrain™, alliances are essential to our No. 1 goal — helping our clients innovate to become high-performance businesses. CompuBrain™ extends our technology and business capabilities through a powerful alliance network of several market leaders and innovators, to provide our clients the best specialized skills and tailored solutions.
